

Construction Clients' Group

CONSTRUCTING EXCELLENCE

The CCG is a client led organisation that aims to lift the bar of the NZ construction industry through collaboration and knowledge sharing.

About Us

The Construction Clients' Group (CCG) was established over ten years ago to fill a gap in the market, as there was no client-led group serving the construction industry at the time. Fast forward to 2024, and CCG continues to thrive, bringing together clients, contractors, consultants, and other stakeholders to promote best practices and advance the industry. This progress is driven by our National Chapter Co-chairs and dedicated members.

Purpose and Objectives

Construction Clients Group is a client-led organisation that aims to lift the bar of the NZ construction industry through collaboration and knowledge sharing.

We aim to do this through promoting and enabling education, collaboration, best practice and support, influencing the NZ construction sector through dedicated workstreams focusing on key issues within the industry (sustainability, safety in design, modern procurement and client excellence).

We facilitate strategic sector relationships through networking to enable constructive knowledge sharing and promotion of innovations and best practice discussions to create a community of excellence.

We support and help to lead good practice across the industry from a national level, promoting client excellence and providing forums for our members to access education, knowledge sharing, and an opportunity to contribute and influence outcomes.

Why CCG?

CCG encompasses all of the construction supply chain; that is what makes us different from other sector groups. It is a great way to have everyone involved and learn how one part of the chain can impact the others!

CCG Supply Chain

Clients

Private, Public (Central Government),
Public (Local Government)

Consultants

Architects, Engineers, Multi-Disciplinary, etc

Contractors

Horizontal and Vertical

Subject Matter Experts (SME)

Providing knowledge and expertise

Academia and Research

Universities and research organisations

Workstreams

Our national workstreams provide a platform to showcase learnings and examples of good practice with the aim to lift knowledge and capability. By facilitating the sharing of improvements in the industry, we will become more effective and collaborative in our approaches to how we work in the industry.

Client Excellence

Environment, Social and Governance

Facilities Management Best Practice

Modern Procurement

Safety in Design
