AEC SYSTEMS
EXPERIENCE. KNOWLEDGE. SOLUTIONS.
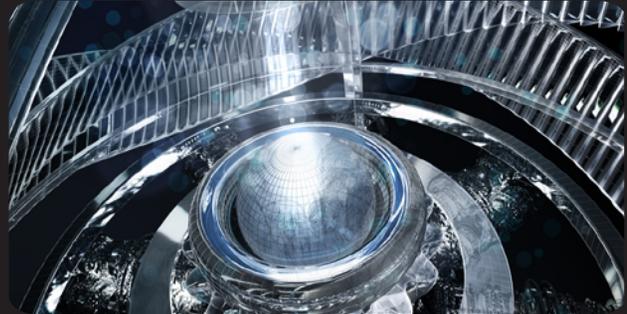

Corporate Profile

EXPERIENCE. KNOWLEDGE. SOLUTIONS.

AEC Systems are one of Australasia's largest design and information technology specialists, committed to providing the highest quality, most reliable, software & hardware services. We look beyond the software to partner with clients in applying technology to improve business efficiencies.

EXPERIENCE

AEC Systems has over 17 years experience in the planning, design and implementation of integrated systems and networks. AEC Systems are your design software and hardware partner of choice. With offices in Sydney, Brisbane, Melbourne, Perth, Auckland and Beijing, clients can be assured of an accessible and qualified standard of service.

KNOWLEDGE

Our core strength is knowledge. AEC Systems choose to partner with internationally acclaimed products, and employ more than 80 professional staff, many with formal qualifications as Engineers, Architects, Designers and IT Specialists. We are committed to maintaining deep, industry specific knowledge of your business and the difficulties you face.

Corporate Profile

Technical Expertise

AEC Systems offer unrivalled local technical expertise. Our clients are able to access some of the most qualified technicians in Australasia. Talk directly with one of our technicians during business hours or access our support website – available 24/7 – to track your logged issues. AEC Systems additionally offer online tips and tricks, regular live and online events, and project based consulting.

For clients facing the challenges of project implementation and delivery, AEC Systems can provide individual consultation. We can improve your business through the following consulting services:

- BIM planning, implementation and rollout
- Systems/workflow auditing
- Software installation and customisation
- Hardware installation
- Programming
- Team development and training

Award Winning Delivery

AEC Systems have been recognised for its contribution to improving the professional development and best practises of our clients and the industry in general. In the last few years we have been recipients of awards for overall business performance as well as technical and sales delivery.

AEC Systems has successfully delivered significant project implementation services to the following clients:

John Holland	CARDNO
THIESS	Laing O'Rourke
NBN Co	Beca

Training

As an Autodesk Authorised Training Centre, AEC Systems is proud to provide a wide variety of training courses for the Architectural, Engineering, Construction, Manufacturing and related industries. Courses are available on a weekly basis at our dedicated training facilities in Sydney, Melbourne, Perth, Brisbane and Auckland. For clients with specific requirements, AEC Systems can also arrange customised onsite training solutions.

AEC System's training centres offer a comfortable learning environment, equipped with the latest hardware, data projection and manuals. Each student is allocated their own work station and classes are limited to small groups. Our professional instructors are fully qualified and have past real world experience using Autodesk software. They are regularly evaluated and assessed to ensure our standard of delivery is maintained at a high level.

Delivering Value

Our commitment to provide you with the highest level of technical expertise and attentive service will set us apart. AEC Systems will deliver the powerful solutions you require to become more productive and maximise your investment in technology.
